

18 November 1963

MEMORANDUM FOR: Director, National Photographic Interpretation Center

SUBJECT :

25X1

25X1

3. The existing contract for a Change Detector is the only contract NPIC has with [] and there is no past history to my knowledge. However, work in radar and infrared has and is being performed for other Government departments. 25X1

4. The Change Detector contract is identified as [] in the amount [] which includes a recent increase of [] to increase the resolution capability from 20 lines per mm to 50 lines per mm. Other work of which we have specific knowledge are: 25X1 25X1

a. [] Experimental Resolution Improvement Research in Mine Detection, 1961. 25X1

b. [] Change Detector Studies, 1961, for GIMRADA. 25X1

The second is a forerunner of the existing contract with NPIC. GIMRADA has a specific interest in the Change Detector Project and has by formal agreement furnished a co-monitor for this development in the person of [] 25X1 The Change Detector is scheduled for delivery in May 1964 with three Government personnel to be trained in its operation at the Goodyear plant during April 1964.
